

The Colocation Facility is designed for use by private companies to house equipment outside of their own physical business location for data storage, disaster recovery, billing services, web/graphics, data analysis, research & development. The equipment can range from Web Servers to Networking equipment such as Routers and Switches. The Franklin Colocation Facility is accessible 24x7 by card key access. Security surveillance is provided by 24-hour cameras located in various spots within the Colocation Facility.

## Colocation Facility Features

- Multiple upstream Internet providers including: Wiltel, AT&T and Accretive Networks
- Fiber interconnected to PocketiNet's IP backbone via dual-fed entrances (SONET)
- Highest availability access for mission-critical applications
- Low cost lockers with 24 x 7 controlled access
- Redundant electrical power & HVAC
- Located in Franklin PUD Administration Building in Pasco, WA for local accessibility
